Hello,

After review of your premises diagram you will not be able to conduct cannabis sales farm style. All cannabis and cannabis products must be stored within the licensed premises. All structures included as part of the licensed premises shall be permanent structures. Structures that are considered permanent structures include, but are not limited to, buildings, barns, sheds, shipping containers, and modular buildings. Structures that are not considered to be permanent structures include, but are not limited to, structures that rest on wheels or any structure that can be readily moved. All structures must be affixed to the ground. Also there are additional regulations such as security, POS systems, etc.

Thank you

Anthony Valadez
