The Department of Public Works has received a road evaluation report for the above project. The report from Manhard Consulting, dated 12/14/2017 and received 12/21/2017 by the Humboldt County Planning Division, appears to have merged two road segments into one road evaluation report. The report incorrectly states that the County maintains 6.1 miles of Old Three Creeks Road. The County only maintains 2.8 miles of Old Three Creeks Road. The remaining 3.3 miles are privately maintained.

The report has certified that the entire length of Old Three Creeks Road is developed to the equivalent of a road category 4 standard.

The Department recommends:

1. The applicant provide a separate evaluation for each segment of road (County maintained and privately maintained) and submit to the Planning & Building Department before the project is considered for approval by the Planning Commission.
