RE: Caleb O'Conner High Art LLC-522-022-015

Hey Yung Mr. Yandell,

The applicant has requested a letter of support for the relocation of his cultivation site. The proposed move of the current cultivation sites onto one 2.4 acre timber conversion which is flat and hidden from view by a stand of trees, is of less concern to the Tribe, than the current locations. I recognize that growing on a flat space facilitates more effective management of the water usage and the remediation of the old sites will prevent sediment discharge and improve water quality. This move also minimizes the amount of land base used for cultivation. I also understand that part of the remediation plans are to remove all materials from the previous sites and to reseed them with local grasses. It is my understanding that the water for cultivation comes from deep ground water wells that are disconnected from surface waters. This letter should not be interpreted as an approval or concurrence of the cultural resource findings, or as deference to the permit review process, but only as consent to relocate grow area.

If you have any questions or concerns please email me at hvt.thpo@gmail.com.

Thank You,

*Keduescha Colegrove, THPO*

Nate,

Based on the letter from the Tribe, the County will support this relocation to the 3-acre conversion as long as no structures are constructed (i.e. hoop houses). We also support Caleb building his planting beds that are planned to be within hoop houses.

Thank you,

Good Day Rodney:

Please find attached letter for support from Keduescha Lara-Colegrove, MA Tribal Historic Preservation Officer Hoopa Valley Tribe.

With this letter it was Mr. O'Connor's understanding that HCPD would support his relocation plan as previously submitted.

Please confirm the department supports this relocation at this time.

Thanks for all your time and effort tracking this detail.

Let me know if you need anything else from us to keep working toward a final decision on the project.

Best,

Nate Madsen
