ANDREW P. STUBBLEFIELD

Professor of Hydrology and Watershed Management

EDUCATION

- University of California, Davis. Ph.D. in Watershed Hydrology received August 2002. Hydrological Sciences Graduate Group. Dissertation Title: "Spatial and Temporal Dynamics of Watershed Sediment Delivery, Lake Tahoe, California"
- University of Michigan, Ann Arbor, Michigan. M.S. in Terrestrial Ecosystem Science received May 1994. School of Natural Resources and Environment.
- Oberlin College, Ohio. B.A. in Biology received May 1990.

POSITIONS HELD

- Professor, Department of Forestry and Wildland Resources, California Polytechnic University Humboldt. 2017-present. Associate Professor, 2012-2017. Assistant Professor, 2006-2012.
- Research Associate. Sabbatical at the Centro Hispano Luso para Investigaciones Agrarias (CIALE) University of Salamanca, Salamanca, Spain. Training in Matlab and use of satellite-derived soil moisture data. 2019-2020.
- Research Associate. Sabbatical with Watershed Management Section of Catholic Relief Services, Nicaragua. Conducted studies of the water quality impacts of coffee depulping mills and the water quality of groundwater resources in Nicaragua. 2012-2013.
- Research Associate. Case Western Reserve University. Department of Geological Sciences. Cleveland, Ohio. Research on the use of fallout radionuclides as tracers of soil erosion and deposition. 2003 to 2006.
- Postdoctoral Researcher. University of California, Davis. Department of Geology. Research on interactions of fluvial geomorphology, sediment and nutrient fluxes and groundwater on the Truckee Marsh, South Lake Tahoe, California. 2002-2003.

PUBLICATIONS IN SEDIMENT TRANSPORT & WATERSHED MANAGEMENT

- Stubblefield, A. P., & Reddy, K. 2022. Measurement and prediction of water consumption by Douglas-fir, Northern California, USA. *Ecohydrology*, 15(2), e2388. <https://doi.org/10.1002/eco.2388>

GRANTS RECEIVED IN SEDIMENT TRANSPORT & WATERSHED MANAGEMENT

- California Department of Forestry and Fire Protection. Railroad Gulch Best Management Practices Evaluation Project- Cooperative Instream Monitoring Project. 2015-2019. \$126,885.
- Humboldt Redwoods Company, LLC. Monitoring In-Stream Effectiveness and Implementation of a Timber Harvest Plan in Railroad Gulch, Elk River, California. 2014-2017. \$60,000.
- McIntire Stennis Program. Cooperative State Research, Education and Extension Service. United States Department of Agriculture. Sole PI. Water for Streams: Investigating the Potential for Forest Thinning to Augment Summer Flows in Northern California Watersheds. 2014-2017. \$100,000.
- LW Schatz Demonstration Tree Farm. Sole PI. Water for Streams: Investigating the Potential for Forest Thinning to Augment Summer Flows in Northern California Watersheds. 2014-2017. \$88,352.
- McIntire Stennis Program. Cooperative State Research, Education and Extension Service. United States Department of Agriculture. Sole PI. Optimizing forest management for stream thermal protection under climate change: insights into radiative and hydrologic processes. 2011-2012. \$56,714.
- Tahoe Environmental Improvement Program. United States Forest Service. Co-PI with A. O'Dowd, C. Praul. Indices of Biotic Integrity. 2011-2012. \$112,000.
- California Regional Water Quality Control Board Water Board. Sole PI. Development of a Water Quality Monitoring Database for the Klamath River Basin. 2010-2012. \$27,666.

- Tahoe Environmental Improvement Program. USFS. Co-PI with J. Varner, E. Knapp. Developing burning prescriptions for balancing fuel reduction, soil exposure, and potential for erosion in the Tahoe Basin. 2008-2011. \$262,000.
- McIntire Stennis Program. Cooperative State Research, Education and Extension Service. United States Department of Agriculture. Sole PI. Evaluation of impacts of timber harvest Best Management Practices on fine sediment loading and salmonid habitat use, Freshwater Creek, California. 2007-2010. \$54,000.
- EPA Region 9/North Coast Regional Water Quality Control Board. Co-PI with S. Steinberg. Developing a coordinated monitoring plan for water quality of the Klamath Basin. 2007-2010. \$275,000.
- Green Diamond Resource Company. Sole PI. Instrumentation of Experimental Watersheds: Little River, Ryan Creek, AhPah Creek, Winchuk Creek, California. 2006-2013. \$86,000.
- Institute for Sustainable Forestry. Sole PI. Sapflow Measurements of Forest Water Use in the Mattole River. 2007-2008. \$9,500.
- Humboldt Redwoods Company. Sole PI. Erosion assessment of McReady Gulch. 2007. \$9,600.
- California Tahoe Conservancy. Co-PI with E. Larsen. Sediment and Nutrient Deposition in Relation to Hydrologic Regime, Truckee Marsh, South Lake Tahoe, California. 2002-2003. \$55,000.
- California Water Resources Control Board. Co-PI with J. Reuter. Sediment Sources in Ward and Blackwood Creeks, Development of TMDL Work Products. 2001. \$64,000.

GRADUATE PROGRAM

- Major Advisor for 16 students receiving M.S. degree in Natural Resources Forest, Watershed and Wildland Science, with four students in progress.

PROFESSIONAL MEMBERSHIPS

- Memberships include: American Water Resources Association, Member and Faculty Advisor to Student Chapter; American Geophysical Union, and Xi Sigma Phi National Forestry Honor Society, Member and Faculty Advisor to Student Chapter.

SCIENTIFIC REVIEWING

- Have performed peer-reviews for 20+ scientific journals in watershed management-related fields. Associate Reviewer, *Water*.
