This letter of Intent sets forth the intent of the Humboldt County Probation Department (HCPD) to contract with Track Group, Inc., A DELAWARE CORPORATION for electronic monitoring products and services. HCPD provides electronic monitoring services as an alternative to detention for adult and juvenile clients, allowing them to continue to attend school and employment, and remain in their homes and communities. The ability of the Probation Department to operate and manage successful electronic monitoring programs requires a reliable vendor to provide electronic monitoring equipment and services.
