COUNCIL GOALS/STRATEGIC VISION

Financially stable, effectively run city with an engaged public

DISCUSSION

The budget serves as the primary programming tool for the implementation of the key policy documents which have been adopted by the City Council. Although the budget helps manage the City's immediate future--tying programs and service delivery activities to policies, goals, and fiscal resources--it is important to emphasize that managing programs and fiscal resources is an on-going process not confined to the City's formal budgetary process.

As in past years, the 2023-24 Budget is based on policies which govern the stewardship of public funds and reflect the City's commitment to balanced financial planning. While

all the policies and objectives were utilized in composing the budget, there were several major principles which most influenced the shape of the financial plan, including:

- The recommended Budget will balance recurring expenditures with recurring revenues.
- Basic services will be maintained at current levels to the greatest extent possible.
- Strive to achieve and maintain working capital balances at levels which will reasonably protect the City from future uncertainties.
- Revenues will be realistically estimated.
- Program costs will be developed to reflect a true picture of the cost of operations.
- The recommended budget will comply with provisions of the State Constitution, City Charter, Municipal Code, and sound fiscal policy.

Total appropriations for all funds for fiscal year 2023-24, as proposed are \$100,084,932.
