FISCAL IMPACT

No Fiscal Impact Included in Budget Additional Appropriation

COUNCIL GOALS/STRATEGIC VISION

Financially Sound City Providing Effective Services

DISCUSSION

The City of Eureka wastewater treatment plant had two cogeneration engines that were constructed approximately 35 year ago. This project consists of replacing both existing engines and installing a new single engine and a new gas conditioning unit plus a backup boiler.

The project was brought before Council on April 21, 2020 and awarded to Hudson Mechanical, Inc. for the construction bid amount of \$2,443,120. During the course of the project six (6) change orders were executed to account for changes in the scope of work for a credit total of \$(65,589.96), bringing the construction amount to \$2,377,530.04, which is within the \$2,500,000 approved for construction.

Staff has determined that the work specified in the contract has been completed in substantial conformance with the Plans and Specifications. Therefore, staff recommends that Council accept this project and authorize the filing of a "Notice of Completion" at the Office of the County Recorder.
