Hi Megan,

The heights of the buildings are as follows:

- Existing 2-story office building: 33.5 feet
- Existing 1-story building: 18.25 feet
- Existing chip silo: ±80 feet
- Proposed modular manufacturing and storage structures: ±9.5 feet
- Proposed warehouse building: Maximum height of 48 feet

I'm working today to send you the other items you and Annje discussed on Monday. I may give you a call for clarification if I need.

Hope you are doing well after that wild quake yesterday 😊

Cheers,

**Lia Nelson**
