Subject: Georgi Stoyanov Special Permit PLN-11929-SP 9/21/023

Caution: This email was sent from an EXTERNAL source. Please take care when clicking links or opening attachments.

This email is to voice my opposition to the special permit order consideration. The applicant in the past has demonstrated lack of stewardship for the land by very poor (illegal) grading practices. The light pollution throughout the nights has been a problem. The lack of water for this project is also obvious. The land being on the top of a hill creates the problem of chemical run off for the surrounding parcels.

Thank You, Randall Clark

If the Planning Commission is convinced that the 210 ft. agricultural well at the top of the hill will not adversely affect the three 60 ft. domestic wells that follow down the hill, then I will trust their judgement and voice no opposition to this permit application.

Sincerely,
Randy Clark (downhill neighbor)

Georgi Stoyonov, pLn-11929-sp, public hearing date November 16,2023

I am a neighbor that lives directly below this project. When this project was started some years ago the hillside was compromised after a huge flat was excavated. The hill has started to slide, aerial photos will show this, also the flat was excavated at the top of an existing historical slide that runs clear down to the EEL River. Greenhouses are continually left uncovered, illuminating the night sky, especially the last few months. Stoyonov's son is also going around the neighborhood with letters of protest out of the confidential file trying to talk to the people who wrote them and asking personal questions about them. I was told only county employees or law enforcement was privy to the confidential file. If you look in the confidential file you should find other letters of protests and concerns from me, similar to this one. Thanks.

Ken Eldridge.

I am strongly opposed of this project.
