

Attachment A
Proposed Changes Post Dec. 2023

Topic	Description	Staff Recommendation	Decision	Decision
GA-6f	prohibit cars from new open space	Consider change for specific locations	make the change	PC approved 6-0
GA-5d	do not delete GA-5d community benefit for artists housing	PC considered this previously and removed it based on deliberations.	make the change	PC approved 6-0
GA-9z	do not delete GA-9z community benefit allowing higher density for architectural detail.	PC considered this previously and removed it based on deliberations.	make the change	PC approved 6-0
GA-3f	do not delete GA-3f calling for affordable housing of various types.	do not support change - provision already exists.	make the change	PC approved 6-0
GA-7i	Public - Keep in Gateway Plan	do not support change - policy in General Plan is more effective.	Do not retain the policy in the Gateway Plan. Extend it to all Class I trails.	PC approved 7-0
Gateway Plan Samoa Blvd	Make bike lanes class IV on Samoa Blvd	support in part - the language should allow for a class IV, but not require it. There are several design and ownership considerations that may prevent installation of Class IV facilities. But the option should be open. Recommend rephrasing to "at least" and from buffered to protected class II lanes.	make the change	PC approved 6-0
Gateway Plan Samoa Blvd	upgrade crossing design to include pedestrian hybrid beacons or traffic signals	support - these concepts should be included as options.	make the change	PC approved 6-0
