RE: Project/Owner: Alfredo Ramirez & Rachel Barry    APN: 303-270-028  
Area: 5445 Northridge Rd. Eureka CA

CAL FIRE has reviewed this exception request for the following Fire Safe Regulations:

**1276.01 Setback**

The project proponent is seeking to build a residence within the 30'.

The review of the site plan confirms that the conditions are consistent with those outlined in the exception request form. Based on the terms specified in the exception request document and a previous conversation with the owner, Alfredo Ramirez, the agreed-upon mitigations to achieve the same practical effect include: constructing the residence in accordance with Chapter 7a requirements, maintaining defensible space extending out to 30 feet or to the property line, whichever is closer, and installing hardscaping or another non-combustible material extending five feet from the furthest extent of the building perimeter. CAL FIRE supports the approval of this exception request.
