Good afternoon, Mr. Ford:

I was unaware I was being recorded by Ms. Owens during our conversation. As for the Mechanics located on Kernen property I located them at approximately 2030-2040 hours. The Mechanics were in work clothes but upon my contact were not actively working. It appeared that they were working on a dump truck in a large garage prior to my arrival.

If you have any further questions, feel free to reach out.

Good afternoon, Deputy Boyer:

We are taking Kernan forward for Revocation at the BOS on December 3. This recording was provided as evidence of a violation. The recording is of you and the complainant Lynne Owens. My first concern is: did you know you were being taped?

I believe the complaint was on October 15, 2024. You indicate you drove through the yard and found people in the repair building. It does not say what time that was. If you could provide that information that would be helpful. You told Lynne you did not observe any other equipment operating. Were the employees in the shop actively working, or was it just before or after a shift?

Any insight you can provide would be appreciated.

Thanks

John
