Measure E

<u>Purpose</u>

On November 8, 2016, the voters of the City of Fortuna adopted a local transactions and use tax through an affirmative vote on a local measure known as Measure E. This measure is a transactions and sales tax measure at a rate of three-quarter percent per dollar. Measure E was set to terminate on March 31, 2025 from the passage of Measure E. However, on November 3, 2020 the voters of the City approved Measure G. Measure G extended Measure E additional years. Measure E is now set to terminate on March 31st, 2033. In the interest of transparency and accountability for expenditure of funds derived from this local sales tax a new fund (101) was set up. This allows the citizens and the City to see the benefit Measure E is adding to the community.

Supported by General Fund River Lodge & Monday Club

Purpose

The River Lodge Conference Center was built in 1998 in response to a need for a regional facility that could be used for conferences, seminars, community activities, weddings and other events. The facility is located next to several hotels and restaurants that benefit from these events, which result in increased sales taxes and transient occupancy taxes for the City of Fortuna.

The Monday Club was built circa 1930 by a local women's group called "The Monday Club". It was later purchased by the Fortuna Concert Series which donated it to the City in 1999. The facility is used by the Fortuna Concert Series and other small groups for events, meetings, and gatherings.

Responsibilities

- Manage the daily and ongoing operations of the River Lodge and Monday Club, including promotion and advertising, event coordination and maintenance and upkeep of the facilities and equipment
- Carry out annual events including the Bridal Faire and Holiday Craft Faire
- Liaison with the Fortuna Chamber of Commerce and Tourism & Marketing Committee to promote events that will involve the use of River Lodge, promote tourism, and benefit the community
- Provide excellent customer service by assisting facility users as needed
- Maintain a state of the art facility with appropriate equipment to satisfy a variety of clientele

Debt Service

Purpose

Debt administration centralizes the City of Fortuna's long term debt obligations to allow for sound financial management and transparency in monitoring and reporting City debt that is used to fund large projects. Debt financing is used when paying for projects, maintenance or upgrades related to City services that cannot be financed by current revenues or would be impractical to do so. Debt service payments are budgeted and expected to be covered by current revenues each fiscal year.

Debt financing not only provides cash for City projects, but spreads the cost of a project over time thereby sharing the cost burden for the project with both current and future taxpayers who will benefit from the project. Financing through debt is most appropriate for long-term investments, and allows the City to maintain its assets while building for the future. Many factors influence the cost of financing, such as the amount of current outstanding debt, the opportunity cost of borrowing and the cost of credit in the financial market. The following describes the different types of financing the City utilizes:

Revenue Bonds

Revenue Bonds can be used to finance capital projects where there is a pledge to pay the debt from a stream of revenue accruing to the City. This form of debt is used to finance facilities and improvements from lease or enterprise fund activities which generate ongoing revenues from services provided to the community.

Assessment District Bonds

Assessment District Bonds can be used to finance infrastructure for a limited area of the City. This particular type of debt (special assessments or special taxes) are levied against the property owners in a defined district who directly benefit from the infrastructure improvement. The City of Fortuna has used this type of debt to finance infrastructure for specific services approved by the property owners within the assessment districts.

Capital Leases

Capital leasing can be used to acquire tangible assets where there is a pledge to pay the debt from current annual receipts and where the acquired assets can be placed under a lien until the debt obligation is paid off. The City of Fortuna has used capital leasing to acquire equipment that is necessary for efficient operations of City Business.
