### 155.204.010 – Purpose of Residential Zoning Districts

#### A. **General.** The purposes of the residential zoning districts are to:

1. Maintain stable neighborhoods offering a range of housing choices for residents with varied incomes and lifestyle needs;
2. Provide sufficient land in a range of residential densities to enable citizens from a wide array of economic levels and stages of life to live in Eureka, and to accommodate the existing and future workforce;
3. Accommodate increased development of high-density housing to balance Eureka's housing inventory and enhance affordability;
4. Encourage the construction of new high-density multi-family housing in zoning districts where multi-family housing is allowed;
5. Promote housing in close proximity to parks, schools, and public services;
6. Promote new development that supports a pedestrian-friendly environment and allows residents to easily walk, bike, and take transit to destinations;
7. Ensure that development protects and enhances the positive qualities of existing neighborhoods and strengthens Eureka's unique sense of place;
8. Encourage the development of vacant lots and the redevelopment of underutilized properties;
9. Allow improvements to existing homes consistent with the historic neighborhood character and the need to produce more housing units;
10. Allow for public and quasi-public uses compatible with a residential setting; and
11. Allow limited neighborhood-serving commercial uses to enhance residents' quality-of-life where allowed by the Neighborhood Market (NMO) overlay zone.

#### B. **Specific.**

1. **Residential Estate (RE).** The RE zoning district provides areas for low-density single-family detached homes, accessory dwelling units, and limited agricultural uses with a rural character compatible with adjacent agriculture, timberland, and open space uses. Two attached or detached single-family homes may be allowed on one lot pursuant to California Government Code ~~Section~~ 65852.21.
2. **Residential Low (R1).** The R1 zoning district contains neighborhoods of single-family homes and accessory dwelling units in a moderately low-density setting, located in proximity to parks, schools, and public services. Two attached or detached single-family homes may be allowed on one lot pursuant to California Government Code ~~Section~~ 65852.21.
3. **Residential Medium (R2).** The R2 zoning district accommodates a variety of medium-density housing types close to commercial (mixed-use) areas.
4. **Residential High (R3).** The R3 zoning district accommodates high-density multi-family housing in an urban setting close to employment centers, mixed-use zoning districts, and/or public transportation.

C. **Coastal Zoning Districts.**

1. The following residential zoning districts are located exclusively in Eureka's coastal zone:
  - a. Residential Estate - Coastal (RE-CZ).
  - b. Residential Low - Coastal (R1-CZ).
  - c. Residential Medium - Coastal (R2-CZ).
  - d. Residential High - Coastal (R3-CZ).
2. Purpose statements, allowed land uses, and development standards for coastal zoning districts are found in Municipal Code Chapter 156 (Coastal Zoning).

**155.204.020 – Allowed Land Uses**

- A. **General.** Table 204-1 identifies allowed land uses and required permits in the residential zoning districts.
- B. **Additional Permits.** In addition to permits identified in Table 204-1, proposed projects in the residential zoning districts may require additional permits and approvals as described in 155.412 (Specific Permits and Approvals).

Existing accessory dwelling units and/or junior accessory dwelling units are considered a "unit" for purposes of an urban lot split subdivision, and lots subdivided pursuant to Section 66411.7 may only be developed with residential uses (e.g. no Non-Commercial Places of Assembly, Family Day Care Homes, etc. are not allowed)</del>					

## 155.204.030 – Development Standards

### A. RE and R1 Zoning Districts.

1. General Development Standards. Table 204-2 shows development standards in the RE and R1 zoning districts when ~~neither~~ the authority contained in ~~California Government Code Section 65852.21 (two single-family homes on one lot) nor Section 66411.7 155.332.040 (Urban Lot Split Subdivisions)~~ is ~~not~~ exercised. Standards apply to both primary and accessory buildings unless otherwise noted.

1.2. Urban Lot Splits. Table 204-2.2 1 shows development standards in the RE and R1 zoning districts for lots that are subdivided pursuant to California Government Code Section 66411.7 and 155.332.040 (Urban Lot Split Subdivisions).

~~B. Two Single family homes on One Lot Zoned RE or R1.~~ Table 204-2.1 shows development standards for development of two attached or detached single-family homes on one lot in the RE and R1 zoning districts pursuant to ~~California Government Code Section 65852.21.~~ Table 204-2.1 does not apply if the subject lot is created through an Urban Lot Split subdivision (See Table 204-2.2).

~~Urban Lot Splits. Table 204-2.2-1 shows development standards in the RE and R1 zoning districts for lots that are subdivided pursuant to California Government Code Section 66411.7 and 155.332.040 (Urban Lot Split Subdivisions).~~

In addition, no setback is required between existing or proposed adjacent or connected single family homes, provided that the structures meet building code safety standards and are sufficient to allow separate conveyance. <del>[6]</del> New garages must be set back either zero feet or 20 feet or more from the lot line. New garages may not be setback any distance between 0 ft. and 20 feet from the lot line. See Figure 204-4. This applies only to garages, not to carports.

**1. Interior Lots.**

- For interior lots adjacent to two developed lots, the minimum front setback for building walls, porches, and stoops may be reduced to the average existing front setback of buildings of all developed lots on the same block face. See Figure 204-1.
- For lots not on a standard block configuration, the minimum setback may be reduced to the setback equal to the adjacent developed lots. New multi-lot subdivisions must comply with the minimum setbacks in Tables 204-2 and 204-3.

A building wall nonconforming to an interior or exterior side setback, if established prior to June 20, 2019, may be extended by-right to accommodate a residential addition of habitable floor area, including accessory dwelling units. See Figure 204-3. This allowance does not apply to garages and other non-habitable buildings or portions of a building.
