Re: Public Hearing "Cisco Farms Inc."
record # PLN-2026-19479.

Dear Planning Commission ~

Please do not allow Cisco Benneman to tape into the groundwater for his cannabis farm. Why is it that 2.65 million gallon pond + 190,000 gallons in tanks are not enough? Will it ever be enough?

We who live in this community neighborhood are already inundated with traffic, lights, noise. Taping into the groundwater will likely impact our water supply for our basic uses - NOT industrial agriculture.

Please NO! thank you

Patricia M. Stefanich
