

**RESOLUTION OF THE PLANNING COMMISSION  
OF THE COUNTY OF HUMBOLDT**

**Resolution Number: 23-**

**Record Number: PLN-12460-CUP**

**Assessor's Parcel Number: 522-024-001**

**Resolution by the Planning Commission of the County of Humboldt certifying compliance with the California Environmental Quality Act and conditionally approving the Mojo Mountain, LLC, Conditional Use Permit and Special Permit.**

**WHEREAS**, Mojo Mountain, LLC submitted an application and evidence in support of approving a Conditional Use Permit for an existing 35,025 square foot (SF) outdoor cannabis cultivation operation and a Special Permit for the continued maintenance and use of a point of diversion; and

**WHEREAS**, the County Planning Division, the lead agency, prepared an Addendum to the Mitigated Negative Declaration (MND) prepared for the Commercial Medical Land Use Ordinance (CMMLUO) adopted by the Humboldt County Board of Supervisors on January 26, 2016. The proposed project does not present substantial changes that would require major revisions to the previous Mitigated Negative Declaration. No new information of substantial importance that was not known and could not be known at the time was presented as described by §15162(c) of CEQA Guidelines; and

**WHEREAS**, the Humboldt County Planning Commission held a duly-noticed public hearing on October 19, 2023 and reviewed, considered, and discussed the application for a Conditional Use Permit and Special Permit and reviewed and considered all evidence and testimony presented at the hearing.

**Now, THEREFORE BE IT RESOLVED**, that the Planning Commission makes all the following findings:

- 1. FINDING:**            **Project Description:** A Conditional Use Permit for an existing 35,025 square foot (SF) outdoor cannabis cultivation operation with 200 SF of propagation. Irrigation water is sourced from a permitted groundwater well (11/12-0971) and a point of diversion. Existing available water storage is 19,000 gallons in 7 hard tanks distributed throughout the site and is proposed to be increased to 519,000 gallons through the addition of a 500,000-gallon rainwater catchment tank. Estimated annual water usage was reported as 525,000 gallons (14.9 gallons/SF). Drying will occur in the existing 768 SF drying building. Processing will occur offsite at a licensed processing facility. In addition to the three operators up to six seasonal employees may be utilized during peak operations for a total of 9 people on-site. Power is provided by 2 Honda 6,500-watt and 2,000-watt generators for water pumps, lighting, general farm use, and drying cannabis. A Special Permit is also

requested for development within the Streamside Management Area (SMA) for the continued use and maintenance of the point of diversion infrastructure.

**EVIDENCE** a) Project File: PLN-12460-CUP

- 2. FINDING:** **CEQA.** The requirements of the California Environmental Quality Act have been complied with. The Planning Commission has considered the Mitigated Negative Declaration previously adopted for the Commercial Medical Marijuana Land Use Ordinance as well as the Addendum to the Mitigated Negative Declaration that was adopted by the Humboldt County Board of Supervisors on January 26, 2016.

**EVIDENCE** a) Addendum prepared for the proposed project.

- b) The proposed project does not present substantial changes that would require major revisions to the previous MND. No new information of substantial importance that was not known and could not be known at the time was presented as described by §15162(c) of CEQA Guidelines.
- c) A Site Management Plan (SMP) was prepared by Northpoint Consulting Group showing compliance with the State Water Board Cannabis General Order for Waste Discharge. Conditions of approval require the applicant to adhere to and implement the recommendations of the SMP and maintain enrollment in the State Cannabis Cultivation Policy for the life of the project.
- d) Review of the California Natural Diversity Database (CNDDDB) indicates the presence of southern torrent salamander on the southwestern portion of the property. This species is found in springs and other wet areas and is therefore unlikely to be impacted by any of the cultivation activities with the possible exception of the point of diversion. However, the point of diversion is subject to an LSAA issued by the California Department of Fish and Game which regulates points of diversion for the protection of this species and others. Northern Spotted Owl (NSO) habitat exists in the vicinity and the nearest positive observation is located approximately 0.23 miles from the project area, with the nearest NSO activity center located approximately 0.90 miles away. Power for the project is currently provided by two (2) generators. Artificial lighting may also be utilized for ancillary propagation. The project is conditioned such that combined noise generated from generators shall not exceed 50 decibels (dB) at 100 feet from the generator or at the edge of the nearest forest habitat, whichever is closer, as required by Section 314-55.4.11(o) Humboldt County Code. Additionally, conditions of approval require the applicant to submit a revised energy use plan that describes the

power demand for the project that includes a description of what power is required for (e.g., propagation, cultivation, and processing), how the size of the generator is reasonable based on the power demand, and how the operation will transition to use of 80% renewable energy (e.g., solar, wind, and/or hydropower) sources by the beginning of 2026. Furthermore, the project is conditioned to adhere to International Dark Sky Standards for any supplemental lighting used for cultivation, propagation, and security, refrain from using synthetic netting, ensure refuse is contained in wildlife-proof storage, and refrain from using anticoagulant rodenticides to further protect wildlife. As proposed and conditioned, the project is consistent with CMMLUO performance and will not negatively impact NSO or other sensitive species.

- e) A Site Management Plan was prepared by Mojo Mountain, LLC. in July 2019 to show compliance with the SWRCB Order WQ 2017-0023-DWQ.
- f) A Cultural Resources Investigation was prepared for the project by Archaeological Research and Supply Company, which did not identify any resources on the subject site.
- g) A Road Evaluation Report was prepared for Old Three Creeks Road from Highway 299 to an unnamed road, and the unnamed road to the subject parcel was prepared. that concludes that the 7.9 -mile route leading to the subject parcel is developed to the equivalent of a category 4 road standard, is in good condition, and does not have any evidence of a site-specific safety problem.

### **FINDINGS FOR CONDITIONAL USE PERMIT AND SPECIAL PERMIT**

**3. FINDING:** The proposed development is in conformance with the County General Plan, Open Space Plan, and the Open Space Action Program.

**EVIDENCE** a) General agriculture is a use type permitted in the Timberland (T) land use designation. The proposed cannabis cultivation, an agricultural product, is within land planned and zoned for agricultural purposes, consistent with the use of Open Space land for managed production of resources. The use of an agricultural parcel for commercial agriculture is consistent with the Open Space Plan and Open Space Action Program. Therefore, the project is consistent with and complimentary to the Open Space Plan and its Open Space Action Program.

**4. FINDING** The proposed development is consistent with the purposes of the existing Timberland Production Zone (TPZ) zone in which the site is located.

**EVIDENCE** a) The Timberland Production Zone (TPZ) zone is intended to be applied to areas of the County in which primary uses include the growing and

harvesting of timber and timber production facilities, including portable processing equipment. Compatible uses other than the direct growing, harvesting, and portable processing of timber include grazing and other agricultural uses.

- b) All accessory agricultural uses are principally permitted in the TPZ zone.
- c) Humboldt County Code section 314-55.4.8.2.2 allows cultivation of up to 43,560 SF of existing outdoor cannabis and up to 22,000 SF of existing mixed-light cannabis on a parcel over 1 acre subject to approval of a Conditional Use Permit and a determination that the cultivation was in existence prior to January 1, 2016. The application for 35,025 outdoor cultivation on a 318-acre parcel is consistent with this and with the cultivation area verification prepared by the County. Humboldt County Code does not authorize any new or expanded cultivation within the TPZ zones and as a result only the 35,025 SF of existing cultivation and 200 SF of propagation may be permitted.
- d) All cultivation is over 300 feet from all property lines and there are no public parks, churches, school bus stops or other sensitive receptors within 600 feet of the cultivation areas.

**5. FINDING:**

The proposed development is consistent with the requirements of the CMMLUO Provisions of the Zoning Ordinance.

**EVIDENCE**

- a) The CMMLUO allows existing cannabis cultivation to be permitted in areas zoned TPZ (HCC 314-55.4.8.2.2).
- b) The parcel was created in compliance with all applicable state and local subdivision regulations, as it was created through a lot line adjustment approved by Humboldt County.
- c) The project will obtain water primarily from a non-diversionary groundwater well source and a rainwater catchment tank. The groundwater well and rainwater catchment is supplemented by a point of diversion and rainwater catchment tanks.
- d) A Road Evaluation Report was completed by NorthPoint Consulting Group, Inc. in March 2020. The Evaluation addressed 7.9 miles of Old Three Creeks Road and an unnamed road leading into the parcel from Highway 299. All road segments evaluated were found to be functionally appropriate for the expected traffic.
- e) The slope of the land where cannabis will be cultivated is less than 15%.
- f) The cultivation of cannabis will not result in the net conversion of timberland.

- g) The location of the cultivation complies with all setbacks required in Section 314-55.4.11.d. It is more than 30 feet from any property line and more than 600 feet from any school, church, public park, or Tribal Cultural Resource.

**6. FINDING:** To provide minimum standards pertaining to the use and development of land located within Streamside Management Areas (SMAs) and other wet areas (OWA) to implement the County's Open Space Element of the General Plan.

**EVIDENCE** a) Conditions of approval require the applicant to adhere to and implement the projects and recommendations contained in the Final SAA and provide evidence to the Planning Department that the projects included in the Final SAA are completed to the satisfaction of CDFW. Conditions of approval also require the applicant to adhere to the terms and conditions of the Right to Use and Divert Water issued by the State Water Resources Control Board (SWRCB). By implementing permit conditions from the SWRCB and CDFW, impacts to the SMA are minimized.

**7. FINDING:** The cultivation of 35,025 SF of outdoor cannabis cultivation and the conditions under which it may be operated or maintained will not be detrimental to the public health, safety, or welfare or materially injurious to properties or improvements in the vicinity.

**EVIDENCE** a) The site is located on road that has been found to safely accommodate the amount of traffic generated by the proposed cannabis cultivation.

b) The site is in a rural part of the County where the typical parcel size is over 40 acres and many of the land holdings are very large. The proposed cannabis will not be in a location where there is an established neighborhood or other sensitive receptor such as a school, church, park or other use which may be sensitive to cannabis cultivation. Approving cultivation on this site and the other sites which have been approved or are in the application process will not change the character of the area due to the large parcel sizes in the area.

c) Irrigation water will come from a groundwater well and a proposed rainwater catchment tank and will be supplemented by a point of diversion.

d) Provisions have been made in the applicant's proposal to protect water quality and thus runoff to adjacent property and infiltration of water to groundwater resources will not be affected.

**8. FINDING:** Approval of this project is consistent with Humboldt County Board of Supervisors Resolution No. 18-43 which established a limit on the number of permits and acres which may be approved in each of the County's Planning Watersheds.

**EVIDENCE** a) The project site is located in the Lower Trinity Planning Watershed, which under Resolution 18-43 is limited to 169 permits and 58 acres of cultivation. With the approval of this project the total approved permits in this Planning Watershed would be 62 permits and the total approved acres would be 28 acres of cultivation. If all of the supply Creek projects on the agenda were to be approved there would be a total of 73 permits and 34 acres of cultivation.

**9. FINDING:** The proposed development does not reduce the residential density for any parcel below that utilized by the Department of Housing and Community Development in determining compliance with housing element law.

**EVIDENCE** a) The parcel was not included in the housing inventory of Humboldt County's 2019 Housing Element but does have the potential to support one housing unit. The approval of cannabis cultivation on this parcel will not conflict with the ability for a residence to be constructed on this parcel.

## DECISION

**NOW, THEREFORE**, based on the above findings and evidence, the Humboldt County Planning Commission does hereby:

- Adopt the findings set forth in this resolution; and
- Conditionally approves the Conditional Use Permit and Special Permit for Mojo Mountain, LLC subject to the conditions of approval attached hereto as Attachment 1.

Adopted after review and consideration of all the evidence on October 19, 2023.

The motion was made by COMMISSIONER \_\_\_\_\_ and second by COMMISSIONER \_\_\_\_\_ and the following ROLL CALL vote:

AYES:            COMMISSIONERS:  
NOES:            COMMISSIONERS:  
ABSENT:        COMMISSIONERS:  
ABSTAIN:       COMMISSIONERS:  
DECISION:

I, John Ford, Secretary to the Planning Commission of the County of Humboldt, do hereby certify the foregoing to be a true and correct record of the action taken on the above-entitled matter by said Commission at a meeting held on the date noted above.
