THE NEW YARD WOULD REMOVE EXISTING FIELDS. AN INDUSTRIAL USE AT THIS LOCATION IS UNCONSCIONABLE.

PROPOSED ACTIVITY NOT CONSISTENT WITH CITY GENERAL PLAN:

4.A.1. The City shall provide high quality public facilities, utilities, and services throughout the urbanized area of Eureka and shall ensure that such facilities, utilities, and services are compatible with surrounding development.

I.N.14. The City shall work with other local, state, and federal agencies to locate governmental garages and corporation yards in heavy commercial or industrial areas. Such facilities should be adjacent to or very near an arterial street, but should not directly abut an arterial, since the ingress and egress of trucks and other equipment could slow usual arterial traffic. The yard site should also be large enough to meet reasonable future needs and be compatible with surrounding land uses. The City shall encourage Humboldt County to relocate its 2nd and J Street facilities to a more appropriate area.

THERE IS NOT ONE WORD IN THE CITY'S 2016-17 OR 2017-18 BUDGETS ABOUT THIS PROJECT. THE TIMELINE FOR THIS PROJECT HAS IT EXPEDITED AND SLIPPED THROUGH DURING THE SUMMER. STOP THIS NONSENSE NOW!!

City of Eureka Corporation Yard Relocation Design Services

BID NO. 2017-34

Statements of Qualifications and separate sealed bids are required for the entire scope of work as described herein:

PROJECT SCOPE

The work to be performed consists, in general, of design services and technical assistance for development of a new Public Works Corporation Yard. The City plans to relocate its Corp Yard to City-owned property comprising 5 acres at the site of the current City of Eureka Water Treatment Facility at 3575 W Street. The City's current Corporation Yard at 945 West 14th Street, Eureka, is located within the tsunami hazard zone and is poorly configured. Relocated divisions include Streets, Water Distribution, Sewer Collections and Equipment Operations. The successful design team will work with City staff to further explore and refine site layout options, select a preferred alternative, and provide detailed construction drawings, plans and specifications for all buildings, utilities, landscaping, paving and appurtenances.

Due to funding constraints the project is on an aggressive accelerated schedule. Construction documents shall be completed by **January 12th 2018.**

Contract Documents, including this Notice, RFP, Professional Services Agreement, General and Special Provisions, and preliminary drawings can only be obtained online at the City of Eureka website <http://www.cityofeureka.gov/dept/pw/engineer>
