## LEGISLATIVE COUNSEL'S DIGEST

Bill No.  
as introduced, \_\_\_\_\_.  
General Subject: North Coast Railroad Authority: right-of-way: Great Redwood Trail Agency.

(1) Existing law creates the North Coast Railroad Authority with various powers and duties relating to rail service in the north coast area of the state, including the authority to acquire, own, operate, and lease real and personal property reasonably related to the operation and maintenance of railroads.

This bill would require the authority, before April 1, 2019, to transfer its rights, privileges, and responsibilities, excluding any preexisting liability related to debt, litigation, or contractual obligations, relating to both its right-of-way south of a point in the City of Willits and the railroad assets the authority owns to an unspecified successor agency, and to transfer its rights, privileges, and responsibilities relating to its right-of-way north of that point in the City of Willits to the Department of Transportation. The bill would abolish the authority after those transfers are made. The bill would require the unspecified successor agency to conduct a freight rail study incorporating the entire length of the southern right-of-way.

(2) Existing law establishes the Active Transportation Program, within the Department of Transportation, to fund projects that promote active modes of transportation, such as biking and walking.

This bill would require the department, within 2 years of being transferred the rights, privileges, and responsibilities relating to the northern right-of-way described in paragraph (1), to inventory any parcel or contract related to the right-of-way and complete an environmental assessment of the right-of-way. The bill would require the department, before January 1, 2021, to transfer those rights, privileges, and responsibilities to the Great Redwood Trail Agency.

This bill would create the Great Redwood Trail Agency, and provides for the appointment of its board of directors. The bill would require the agency, upon 4 board members joining the agency's initial board of directors, to advise the department on issues relating to the creation and maintenance of a trail in place of, or next to, the northern right-of-way. The bill would require the agency to create and maintain a trail in place of, or next to, the northern right-of-way. The bill would require the agency to complete the railbanking process on, or next to, a portion of the northern right-of-way,

and would authorize the agency to contract with an operator to operate freight or excursion rail service on the remaining portion of the northern right-of-way, as specified.

(3) Because this bill would impose new requirements on local entities, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: yes.
