Humboldt County Board of Supervisors
825 5th Street, Room #111
Eureka, CA 95501

Dear Members of the Board,

I'm writing to express my interest in being nominated for appointment to the North Coast District seat on the California Coastal Commission. I believe my experience on the Arcata City Council and my background in natural resources makes me a well-qualified candidate for this position.

While it's essential we continue to work to promote the health of our bay, I also understand the need for economic development. When the California Coastal Commission suspended permits for local oyster farmers in 2017, I sought out information from all sides of the issue to ensure I was making an informed decision when choosing to support responsible oyster farming practices that would significantly reduce the negative impacts to eel grass.

I believe it's important to find balance between preservation of our natural environment and deriving economic benefits from our lands in a responsible way. Humboldt Bay is a world-class example of this as we've successfully maintained a healthy bay while realizing the many economic benefits from oyster production, fishing, hunting, and various forms of recreation.

The North Coast has many challenges and opportunities ahead of us relating to coastal issues, e.g. offshore wind power and sea level rise, and I'm ready to work hard to represent our region on these issues. Thank you for your consideration.

Sincerely,

Brett Watson
