

Joe Goeken, Ukiah, CA.
July 20, 2026

I am a 2nd generation Potter Valley graduate, 5th generation Mendocino co resident. I grew up along the East Fork Russian River, learning to fish and swim. My family and friends currently still live in Potter to this day. I am a father of three boys, husband and friend that still relies on the water the Russian and eel provide. I am appalled at what seems like common sense to why the PVD/Scott Dam should be saved. It will cost a billion or more to take down the dam. For a quarter of that the dam could use maintenance, hydro could be restored and a fish ladder could be installed. Please reconsider this brainless idea and at the very least consider Elsinore as a option to saving our community.

Sincerely,
Joe and Sarina Goekin
