## ABOUT THE BAND

The sound of Wolf Jett will make you dance, sing... and possibly even howl! Their all-original songs infuse folk, soul and Americana into what they call “Cosmic Mountain Music.” Co-founded by life-long friends and musical partners, Wolf Jett combines the southern-fried vocals of Tennessee-born frontman Chris Jones with Jon Payne’s endlessly groovy drums. Currently performing with Duncan Shipton (bass), Allyson Makuch (vocals), Rory Cloud (guitar), and Alex Benjamin (keys/percussion).

The band has steadily grown their fanbase since 2020, resulting in sold out shows and festival appearances on both coasts of the US. This year promises to be a busy one with the release of their third album *Letting Go* April 2<sup>nd</sup>. Their music is in regular rotation on KPIG and WNCW radio. They are currently working with Rowboat Music Booking Agency.
